

CareerVision

# Intermediate Presentation Group F

Daniel Rüdiger, Anton Averianov, Chingiz Kuanyshbay, Maciej Lubinski

# Project Overview: The current status of CareerVision

## Project Status

**Front-end** is fully developed:

- Content and information
- Uniform style
- Pages integrated and linked

**Back-end** is almost complete:

- Database integrated
- Web-Scraping proofed, to be scaled
- Matching-Engine in progress

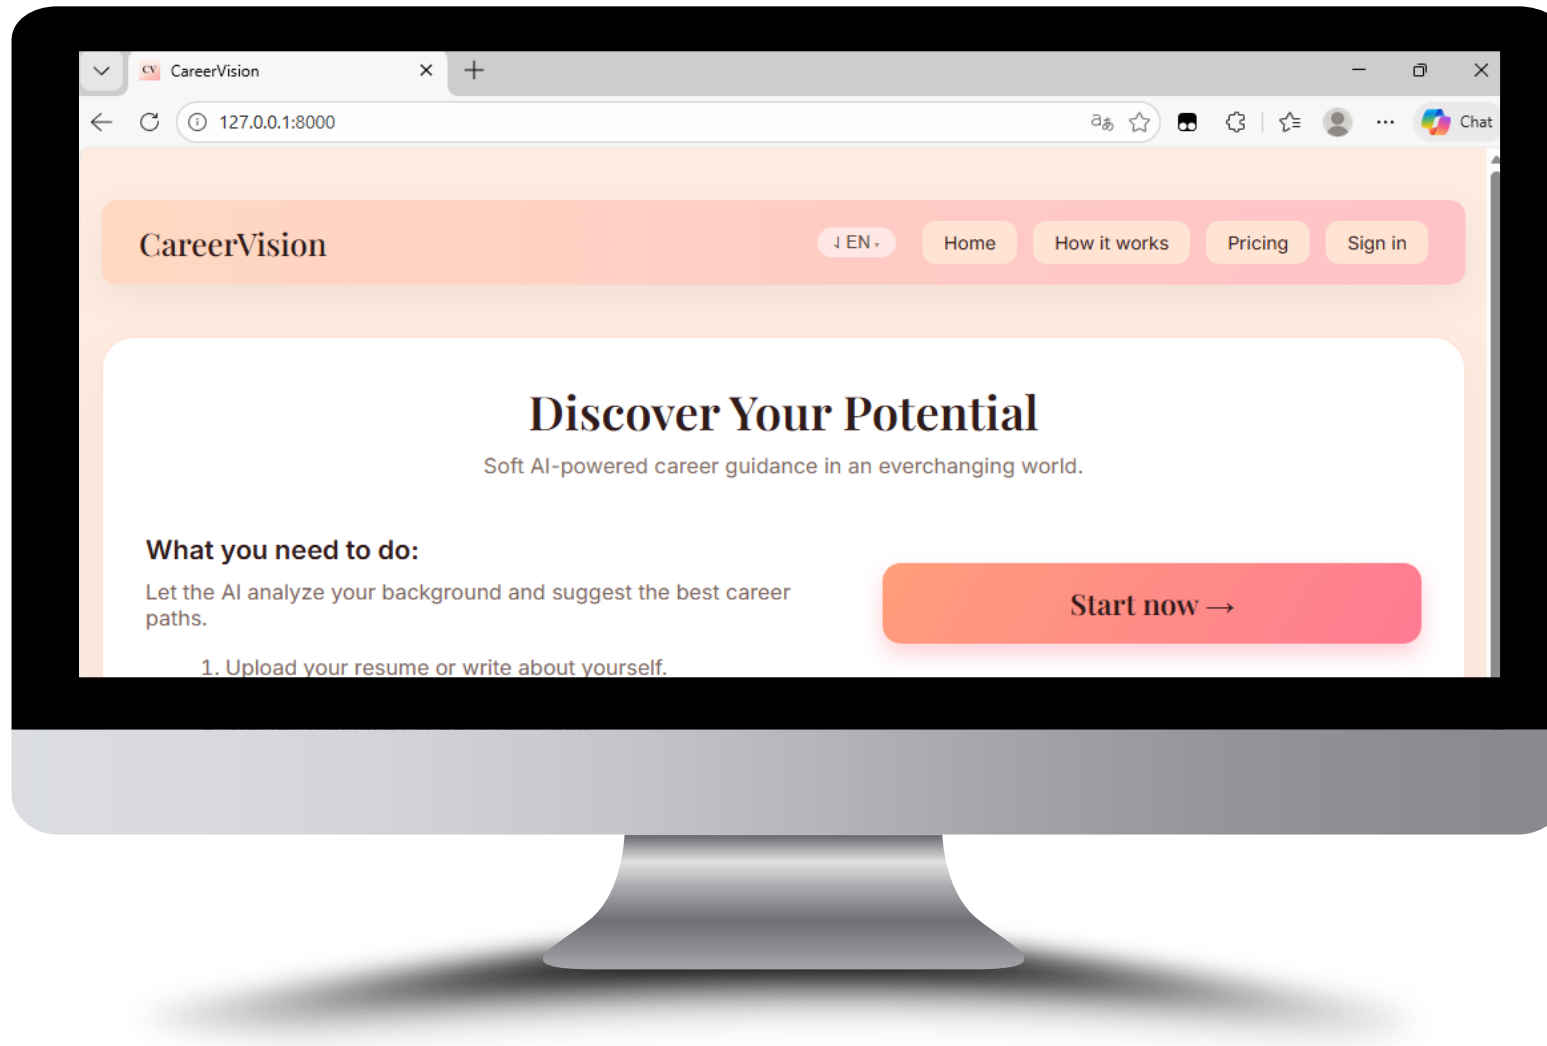

## Project Plan

Changes in Project Plan: No major changes, speed up integration due to slack in the winter break

### Remaining Goals

- |        |   |
|--------|---|
| 18.01. | Merge front- and back-end                         |
|        | Write comprehensive documentation                 |
| 28.01. | Write the final report                            |
|        | Prepare final presentation                        |
| 04.02. | Add repository requirements as outlined on Moodle |

# Project demo: CareerVision Beta in action

# Learnings: Current Issues and their Solution

## Problem

Front- and Back-End divide

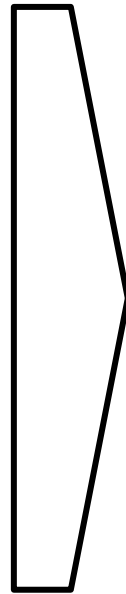

Lacking documentation

Christmas break & sickness

No major technical issues thus far

## Solution

Work in one repository from the start

Create in accordance with requirements

Vitamins, vaccines, rest, adapt plan

Pray that it stays this way

The background is a solid blue color with several large, semi-transparent, geometric shapes (polygons) overlaid. These shapes are in various shades of blue, creating a layered, architectural effect. The shapes are primarily triangular and quadrilateral, with sharp edges and vertices.

# Thank you!
